

“Hearing and Answering your Call to Create!”

“Cultivating and Choreographing the Rich Tapestry of Whole Hearted Creativity”.

New EMCC Global EQA Diploma Starting in November 2021

“We believe that creativity is an adventure of the soul in its quest for meaning through life, and that we are all called to create in our own uniquely different ways to express more who we are, as we also contribute to a kinder and wiser world.”

From the Award Winning Creative Partnership PattersonPrenticeDesigns

However, the call to create can get drowned out by the overwhelm of a busy life, by our assumptions about what we think creativity is, who it is for and what it is not and maybe even some hesitation about what it means to pursue a more creative life. As we face into all of the reverberations of the triple pandemics on our lives, our families, our businesses, and the world at large, creativity’s playfulness, inspiration, vitality and courage is needed more than ever as we dare to re-imagine what is possible - and then to make it happen. We therefore believe that creativity is also a radical act of hope.

If you are looking to be and do differently and to answer the call of your soul to dance into the breadth and depth of your creative potency, join us our 12 month programme

“Cultivating and Choreographing the Rich Tapestry of Whole Hearted Creativity”. This is an EMCC Global EQA Accredited Level 5 Practitioner Programme.

Tapestry is an eclectic and beautifully curated adventure where you will journey with fellow soul travellers to journey through the six creative thresholds to free up your creative spirit in three profound ways.

- Firstly, with the invitation for you to come home to the rich tapestry of your own innate creativity, how it can be uniquely and whole-heartedly expressed by you and through you, and how you can marry the magic of your imagination with the pragmatics of your role
- Secondly, to explore and appreciate the complex warps and wefts of any creative process so that you can better support yourself and also others to birth, reshape or re-imagine what is needed
and

- Thirdly to then apply these emergent insights to the design and crafting of a creative project of your own choosing over the course of the year which can be as bold and different as you dare to dream

Here is what two of our current programme participants say:

"I entered this program to enrich my professional practice. I am leaving this program as a more inspired, open, brave, energetic, curious, creative, knowledgeable, and cultured person - and this in turn enriches my practice. In gratitude to our guides, Elaine and Karyn"
Ursula Clidiere, Switzerland

Wholeheart Tapestry

*is giving me
a whole-of-life

*allowing me
to mine
depths
and scale peaks
